

## Research intelligence for *science-led* teams.

Atlas is an AI research platform that delivers rigorous, publication-ready intelligence reports in hours, not weeks. Our structured pipeline combines specialist AI agents with human expertise at every checkpoint to ensure accuracy, transparency, and trust.

### Hours, not weeks

Go from brief to final report fast.

### Human-in-the-loop

Experts review at every critical checkpoint.

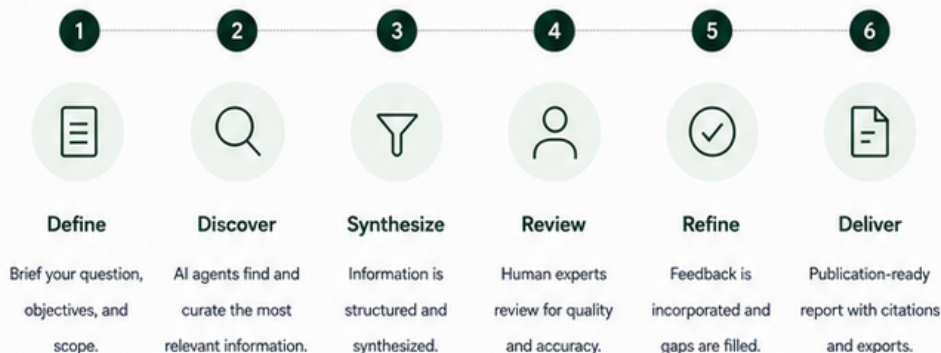

### Publication-ready

Structured, cited, and ready to share.

## Built for how research teams work

Atlas runs a structured research pipeline tailored to complex, high-stakes questions. From planning to final deliverable, every step is designed for depth, traceability, and trust.

## Use cases

### Technology landscapes

Map technology areas, players, trends, and white space.

### Company intelligence

Deep-dive on companies, startups, partnerships, and pipelines.

### Competitive analysis

Benchmark competitors and identify strategic advantages.

### Literature reviews

Comprehensive, structured reviews with citations.
